Rabbits mating in back yard

✓ Home about 3:30 - on opening garage, found fledged Chickadee on garage floor, near house wall, calling; put it back in box, after removing ball of fuzz around its right foot. After a few feedings it came out & flew to lawn

under clothes-line trees. Eventually moved down to fence line & 4 feet up in honeysuckle. Then I located a second fledgling, flying strongly about ± 30-50 ft. flights.
